

## ESIS

ESIS provides thorough and practical asbestos and lead survey reports, hazard assessments, material location drawings, management plans, Operations and Maintenance programs, and training services.

We have managed some of the nation's most complex asbestos and lead-based paint abatement projects, and successfully managed asbestos and/or lead-based paint projects in over 500 commercial buildings.

Our services include the following:

- ACM building inspections/hazard assessments
- Asbestos Management and Operations and Maintenance program development
- Abatement project design specification
- Project bidding and contractor selection
- Project oversight
- Training and education consistent with federal requirements
